Subject: Sending an OSC to work with you

Hi Gina and David,
After today's calls we realized it's probably a good idea to get some immediate help out to you and establish a person from R9 to fully integrate and coordinate activities in our Region. We thought OSC Rob Wise should meet you in Durango and we've asked him to head out. Let us know who he can meet with and how he can help you organize.

Main basis for this decision is that we were requested by the Navajo EPA to help w drinking water sampling and river sampling in their territory. We are sending 2 STARTs to coordinate and assist them. At the very least, Rob will facilitate getting the Navajo results and updates to you right away and help us get the command messages back to them.

We'd also very much like to send a PIO to participate in a JIC with and other the affected agencies. We plan on sending Rusty Harris-Bishop tomorrow as well (not confirmed). Randy Nattis also plans on joining our STARTs on Navajo on Monday.

We understand that your ICP might use Rob or Rusty once things get going. Please feel free to do so recognizing that we do need to tie Navajo officials in to the response to ease everyone's burden. We may contemplate Navajo public outreach as we and want to get squared w you as that develops.

Thanks very much! Let me know who Rob can contact. Talk to you tomorrow.
Harry
